Volume 47, Number 3. — **THE ALUMNUS** is entered as second class matter at the post office in Cedar Falls, Iowa, under the act of August 24, 1912. Authority granted January 27, 1930. It is published and distributed quarterly in September, December, February and May by State College of Iowa. The Alumnus is mailed without charge to 22,500 alumni. As second class matter it is not forwardable without extra cost.

Growth Problems—The Case for Increased Support of SCI

By J. W. Maucker, President
State College of Iowa

WE ARE experiencing a rapid growth spurt at SCI. Our enrollment has increased during the last two years by 950 students! This two-year increase alone would constitute a good-sized Iowa college. Our Registrar predicts a further increase of at least 800 more students in the next two years—even if we tighten up somewhat further on admissions. Then, in the fall of 1965, the large postwar birth rate group will begin to come out of the high schools and into the colleges, boosting enrollments everywhere.

Qualified Students

Most important—this increase in enrollment is made up of students who are qualified under the Regents' admissions policy, administered conservatively. Ninety-seven per cent of our new freshmen in the fall of 1962 come from the upper two-thirds of their high school classes—eighty-six per cent from the upper half. We turned down more than 300 applicants as freshmen this fall and turned away more than 50 part-time students from the local area because our classes were full. Ninety-five per cent of these students are from the state of Iowa. Moreover, we have introduced no new programs—not even any new courses—that were not developed primarily for the preparation of teachers. In other words, this is a genuine demand from qualified Iowa students who want to become teachers or to take liberal and vocational

arts programs in the fields we have been offering for years.

Calls for More of Everything

This rapid increase in enrollment obviously calls for more staff, equipment, offices, laboratories, classrooms, supplies, books, clerical service, utilities, maintenance staff, etc.,—more of practically everything that makes up a college.

College Efforts to Operate Efficiently

Seeing this increased demand for services coming, we have tried, especially during the last five or six years, to do our part at the college to make better use of our staff and facilities as well as to improve the overall quality of instruction. We have markedly increased the effective load of staff members, increasing class size from an average of 22 in 1955 to approximately 30 in 1962. We have introduced the use of closed circuit television in subjects adapted to its use. We have changed our student teaching setup markedly. In general, we have held the line on staff in all categories. Our total staff—academic, clerical, physical plant—is only 2 per cent larger in 1962, with an enrollment of 4,572, than it was in 1950 with an enrollment under 3,000.

Gains Made on Modest Appropriation Increases

I should like to cite three sets of data which indicate the fact that in

(Continued on next page)

(Continued from page 1)
recent years we have absorbed large numbers of students and met salary competition for staff with only modest appropriation increases:

1. Since 1957 (during the last five years) we have added 40% to the student body (1,350 persons) and have increased academic salaries on the average by \$2,000 with a total increase through the five years of only \$750,000 in annual appropriation from the legislature.

2. Another way of putting this—during the last five years our academic salaries have gone up 6% a year, and our enrollment has gone up 8% a year. If we had expanded staff proportionately with the increases in enrollment, this would have required a 14% increase in support, but actually we got appropriations increases of only 5% a year, on the average. The difference was made up through increased student fees and increases in the effective load of staff.

3. During the last three years—since 1959-60—the number of students has gone up one-third (1,241), while the appropriation has gone up one-eighth (\$418,000).

Limits to the Absorption Process

The point is that we have done about all the absorbing of additional load through internal changes that we of the faculty and administration believe is consistent with good quality instruction. We will continue to strive to do a better job with the funds provided. If during the next two years, however, we let class size go appreciably higher or increase faculty load substantially or cut out valuable auxiliary services which enrich instruction, we will inevitably cut down on the quality of the instructional program offered to the students. And **quality** in an educational program is of overwhelming importance. Consequently, we must add staff and we must raise salaries.

We face the biennium of 1963-65 with the student load going up, over the 3-year period from 1961-62 to 1964-65, at

the rate of 10% a year and with at least 5% a year required for salary increases to get and hold good staff. Therefore, we need to have increases in operating funds of 12% a year. We can get about 2% per year increase in income from student fees, so we need about 10% per year increase in appropriation — about 30 per cent total over the 3-year period. This in turn means that our appropriation should be at least a million dollars more for each year of the coming biennium than it is at present. (We now receive 3.7 million dollars per year; the Regents are requesting 4.9 million dollars.) This is a huge request, we realize, but the times call for action on this scale.

Building Needs

The legislature has given us about 2¼ million dollars each of the last two biennia for modernizing old buildings and building new ones. This has made a tremendous difference in morale and in the quality of our physical facilities. We sincerely hope that the legislature will keep the ball rolling with an appropriation of at least that amount for buildings in this next biennium.

Our first priority need is for a modern Science Building. The two buildings in which we house science classes, offices, and laboratories are both more than 50 years old. And they are so crowded that we are now using rooms in the old hospital building, a frame brick veneer house, built in 1912, for science laboratories.

Alternatives Ahead

This coming session is a crucial one for SCI. We either have to get a go-ahead from the legislature in terms of substantial increases in appropriation (of the order of a million dollars a year) or we have to find some way to choke off the influx of qualified young Iowans and tailor instructional offerings to the funds available, so as to preserve a good quality program for the students who do attend. We hope for a forward-looking answer from the citizenry of Iowa.

Regents Approve 100-Acre Purchase

The State Board of Regents has approved the purchase of 102.7 acres of land by the State College of Iowa for \$100,000.

It is expected that the land will be used jointly with the present golf course to enlarge the course to 18 holes.

The land adjoins SCI property (the present driver education driving range) south of 29th Street running east to Main Street west of the present college golf course.

The purchase is subject to the approval of the Budget and Financial Control Committee.

New Title for Dean Lang

Dr. William C. Lang, dean of instruction and dean of the college, has been named director of teacher education by the State Board of Regents.

"Dean Lang was given the new title by the Board in formal recognition of the responsibility which has long been fulfilled by his office," said Dr. J. W. Maucker, SCI president.

Dr. Lang joined the SCI staff in 1949 as associate professor of history. He was named head of the department of social science in 1955. He also served as chairman of the humanities staff, curriculum coordinator, and assistant to the dean of instruction before his appointment as dean of the college and dean of instruction in 1959.

Administration Building Plans Are Approved

The State Board of Regents has approved preliminary plans for the new State College of Iowa administration building which were presented by the architectural firm of Altfillisch, Olson, Gray and Thompson of Decorah.

The Board also approved a revised project budget of \$750,000 for the building. The original appropriation for the structure was \$720,000. The additional \$30,000 is being used from available funds.

The new building will be erected on the SCI campus south of 27th Street near the Arts and Industries building.

The building will house offices of the president, dean of instruction, a faculty room, business office, student personnel, registrar, computer and IBM room, computer classroom, college relations, alumni affairs, mimeograph, research, and mail room.

Preliminary plans indicate that the structure will be of three levels with non-load bearing walls for flexibility in usage. It will have temperature and humidity control throughout and will include about 40,000 square feet.

Ruth Meyer, '29, Resigns Post Here

The resignation of Miss Ruth Meyer, secretary to the dean of instruction at the State College of Iowa, has been announced by Dean William C. Lang.

Miss Meyer had been associated with the college since 1930, and had served with the dean of instruction since 1949. She has assumed secretarial responsibilities with an industrial firm in Phoenix, Ariz.

A 1929 graduate of SCI, Miss Meyer also taught in Iowa public schools, including Cedar Falls, for six years.

23-4-1: Best Three Years in SCI Football

By George Wine

WINNING football teams have long been a tradition at the College, but the 1962 Panthers go to the head of the class after climaxing a brilliant three-year record.

Starting in 1960, when Stan Sheriff became head coach, SCI football teams have these accomplishments to their credit:

1. A record of 23 wins, four losses and one tie—the best three-year mark in Panther history. SCI was 9-1 in 1960, 7-2 in 1961, and 7-1-1 this season.

2. Three North Central Conference championships, including a clear title in 1960 and co-titles the last two years. The Panthers' three-year conference record is 16-1-1.

3. Broke or tied 14 school records during the three seasons. A half-dozen were team marks. Fullback Dan Boals got five of the individual records and quarterback Dave Cox accounted for the other three.

The brilliant Boals has kept statisticians up nights the last two years with his assault on the record books. He made shambles of them as a junior, then came back this season to better some of his own standards.

Dan put the SCI rushing mark at 1,039 yards for one season and the career total to 2,377. He increased his own league standard to 757 yards for a season and became the first player in conference history to win a triple crown—rushing, scoring and total offense. He snapped the SCI scoring mark this season with 90 points and bows out with a career total of 193. In league play he scored 143, thought to be a record.

The 5-10, 190-pound native of Urbandale is the Panthers' No. 1 candidate

for All-America recognition and everyone connected with SCI football, especially the coach, is pulling for him to make it.

Sheriff recommended his senior fullback to play in the East-West Shrine game in San Francisco. Stan played in the same game in 1953. Halfback Larry Thompson, who will be back next year, was second to Boals in scoring and rushing. He averaged 6.3 yards in 100 carries and scored 46 points. The Panthers averaged 21.2 points and 308 yards a game. Opponents averaged 9.9 points and 208 yards.

In addition to winning the conference co-championship, SCI won three statistical crowns: rushing (259 yards a game), total offense (318) and rushing defense (107). Anchoring the rugged front line which was instrumental in these marks were seniors Ted Minnick, a tackle, and Duane Waters, center.

Ten seniors bowed out this season leaving Coach Sheriff with another big rebuilding job next fall.

Sheriff

Boals

Cox

Thompson

Waters

Minnick

Cagers, Wrestlers Missing Top Vets

STATE COLLEGE of Iowa enjoyed a record-breaking basketball season last year, but things aren't likely to go so well with the Panthers this winter. Coach Norm Stewart, starting his second campaign as SCI's head man, has five lettermen back, but missing are the top three scorers from the 1961-62 club.

So Stewart, who has his Panthers working hard for their season opener Dec. 1, has a big rebuilding job ahead. Gone from last year's team that won 19 of 24 games and the conference co-championship are Pete Spoden, Jerry Holbrook, and Bob Walder.

All three were named to the league all-star team (Spoden was voted most valuable) and together they averaged 51 points a game, or 65 per cent of SCI's offense.

Returning lettermen include Bob McCool, Paul Balcom and Dick Christy, all frequent starters a year ago, plus Duane Josephson and Dick Savage, top-flight reserves. They ranked four through eight in scoring and had a combined shooting average of over 40 per cent.

The Panthers may not have as much trouble getting points as they will getting rebounds. Balcom, at 6-5, is the tallest, although he should get help from 6-6 rookie Dick Lowe, No. 2 scorer on the frosh team last season. Other leading sophomores are Ron Jessen and Herb Justmann. Both are just over 6 feet.

Josephson, now a junior, would be a big asset if he revives the scoring touch he flashed as a freshman—over 20 points a game, a school record. Bruce Lein, a 6-3 returning squadman, is running at guard in pre-season drills and his play has pleased Coach Stewart. Junior college transfers Terry Peters and Phil Martin are expected to help.

THE 1962 wrestling season was an unusual one for State College of Iowa. The Panthers, crippled much of the year by injuries, hobbled to a 5-9 record, worst dual meet mark in SCI history. Then, at the NCAA University Division tournament, Coach Bill Koll's team stunned many fans by finishing fifth.

It was SCI's highest finish in national competition since 1953, and one of the three wrestlers largely responsible for putting the Panthers there is back this season.

He is Bill Dotson, who has never lost in dual competition (21-0-4) and saw the NCAA 137-pound crown slip from his grasp in the final minute of the title bout. Dotson heads a cast of six returning lettermen as the Panthers face a schedule even tougher than last year's.

Not present, however, are Frank Freeman and Dave Jensen. Freeman was an NCAA runner-up in 1962, and Jensen had the same distinction a year earlier. Other absentees are Don Wilson, Wendell Williams and Joe Fox, who has eligibility remaining but is recovering from an auto mishap.

Veterans on the current roster besides Dotson are Jim Sanford, Bob Stevens, Wayne Cormaney, Dan Dunham and Jim Brainerd. Sanford, who wrestled at 147-57-67, had a 7-3-1 record last winter. Cormaney was 2-0-1 and Stevens was 2-2 but sat out much of the campaign with an injury.

Coach Koll has a sizable group of sophomores. Among the better ones are Gary Pollard (123), Ron Mehlin (157), Dick Austin (167) and heavy-weight Dennis Bahr. Mehlin is not eligible until the second semester.

Returning squadmen Steve Hoemann and Dick Rausenberger should also help.

Panther Harriers 2nd in Conference

SCI's cross-country team, under new coach Jack Jennett, finished a successful season in November. The Panthers

Prichard

had a 4-3 record in dual meets and placed second in the North Central Conference meet.

Jay Prichard, a Fontanelle junior, won the league's three-mile race in a record-breaking time of 15:16.7. Surprisingly, it was only Prichard's second No. 1 finish of the fall. He placed second in six of the seven dual races.

Sports Scores Anyone?

If you are living outside of Iowa and not getting scores of SCI athletic events, the College Relations Office suggests you contact your local newspaper.

Results of all Panther home games are relayed immediately to the A.P. and U.P.I. bureaus in Des Moines. They in turn place the scores on a national sports wire, and your paper should have these results 10-15 minutes after the games are completed.

A phone call to the sports department of your paper, saying you would appreciate seeing the SCI scores listed, is usually all that is necessary.

Students Back Kennedy

Over 1,000 State College of Iowa students signed a statement supporting President Kennedy's action on the Cuban quarantine.

The statement read: "We, the undersigned, as students at the State College of Iowa, and as young Americans, do here proclaim our support of President Kennedy's action on Cuba as necessary to arrest the Soviet Union's expansion in the Western Hemisphere."

Record-Breaking 4,500 Enrolled Here This Fall

Enrollment at the College this fall hit a total of 4,572, as announced by Registrar Marshall R. Beard.

The total breaks all previous enrollment figures at the State College including the long-standing record set by 2,135 women enrolled in the fall of 1924. There are 2,391 women enrolled this fall.

An analysis of the total enrollment shows an increase of over 22 per cent in graduate student enrollment. Graduates this semester at SCI number 376 compared to 312 last year. Of this year's total, 257 are men and 119 are women.

However, women outnumber the men in the 4,196 undergraduate enrollment with 2,272 women and 1,924 men. The total marks an 11.8 per cent increase over the 3,844 undergraduates who studied at SCI last fall.

The combined total of both graduates and undergraduates compares with 4,070 enrolled last year, a 12.6 per cent increase. The total is 956 more students than were enrolled in 1960, a 27 per cent gain, and 1,144 more than in 1959, a 33 per cent increase.

Engelhardt Named 'Dad of the Year'

Curtis R. Engelhardt, lifelong resident of Elkader, was named Dad of the Year at the College Dad's Day festivities.

The father of SCI senior Carroll Engelhardt owns and operates a farm near Elkader. He was honored at halftime ceremonies of the North Dakota State-SCI football game.

He was named Dad of the Year for his son's leadership and achievement at State College. Carroll, now a senior majoring in social science, is head resident of Newbold house in the Baker Hall for Men.

Holland Radio Plays Latham Concerto

"Concerto Grosso for Two Saxophones and Chamber Orchestra," composed by Dr. William Latham of the State College of Iowa music department, was broadcast by the Dutch Radio Association Orchestra from Hilversion, Holland, on Oct. 30.

The concerto was originally composed for saxophones and symphonic wind ensemble especially for Sigurd and Karin Rascher, internationally famed concert saxophonists. It was played in this form last year during the SCI band tour, with the Raschers as soloists.

Dr. Latham completely rescored the work for the orchestra performance in Holland. The composition was performed by the Algemeene Vereniging Radio Omroep (Dutch Radio Association), with Hank Spruit, conductor, and the Raschers as soloists.

Art Exhibitions Scheduled Here

Following are the remaining events on the current Art Exhibition schedule in the Arts and Industries building here. The exhibits are open from 8-5. Sunday openings are from 2-4:30.

Jan. 7-Jan. 25 (Sunday Opening, Jan. 13). **Selections from the Collection of Mr. and Mrs. James S. Schramm**, Burlington, Iowa. About 26 works in painting, sculpture, etc., from this impressive and choice collection.

Feb. 5-Feb. 22 (Sunday Opening, Feb. 10). **Cubism Now**. Works in various media by 24 West Coast artists.

Feb. 25-Mar. 15 (Sunday Opening, Mar. 3). **Paul Smith, One-Man Show**. SCI painting instructor.

Mar. 17-Mar. 29 (Sunday Opening, Mar. 17). **Senaka Senanayake**—approximately 20 oils by a 12-year-old boy

Ames Junior Chosen Homecoming Queen

Debbie Noland, a junior from Ames, was chosen 1962 Homecoming Queen.

Miss Noland, the daughter of Dr. and Mrs. J. C. Noland, is a lower elementary education major. She was crowned at halftime ceremonies of the SCI-Morningside Homecoming football game.

She was chosen by a vote of the student body from a field of 10 candidates.

Serving in Miss Noland's court were Ellen Edwards of **Shelby**, Bonnie Euler of **Bridgewater**, Maryann Rieks of **Hubbard**, and Donna Sandvig of **Webster City**.

Miss Noland

artist of **Ceylon**. Exhibition circulated by Indiana University.

April 2-April 19 (Sunday Opening, April 7). **Ridge Guild Washington Square Prize Winners**. About 20 artists from the New York area, including Nell Boardman, a graduate of SCI.

April 22-May 10 (Sunday Opening, April 28). **Stuart Edie, One-Man Show**. SUI painting instructor.

May 15-May 31 (Sunday Opening, May 19). **SCI Student Show**. A selection of student work in all media.

Scenes From the 1962 ISEA Coffee Hour

SCI professor Elaine McDavitt, left, chats with drama teachers Carl Albert of Mason City and R. William Hauseman of Clinton.

Stanley Reeves, Clinton principal (left), and Mrs. Genevieve Nordskog Madsen (right), catch up on college happenings with Alumni Director Milo Lawton.

Southern Cal Alums Meet on March 9

The State College of Iowa Southern California Alumni have set the date of their Annual Spring Reunion for Saturday, March 9, 1963, according to Dr. Sam M. Huston, president of the group. The 6:30 dinner will be held at the Immanuel Presbyterian Church which is located at 666 South Catalina Street, Los Angeles. Reservations may be made with Mrs. Esther Foy, 6672 S. Berendo, Los Angeles, at \$2.75 each.

The Southern California Club, in addition to sponsoring a \$100 scholarship, spearheaded a telefund campaign on behalf of the SCI Foundation last spring. This was the first organized effort on the part of SCI Alumni on behalf of the Foundation. Dr. Victor Peterson headed a group of some 31 team captains, who in turn enlisted help from other alumni in an effort to contact every alumnus in the Los Angeles area on behalf of the SCI Foundation. Their efforts resulted in there being twice as many contributors from California during 1961-62 as in previous years.

College Offers 11-Week Summer Session in 1963

TEACHING alumni, and those with children in high school, will be interested that, beginning in the summer of 1963, the College will give qualified high school graduates an opportunity to get a head start on their college careers with the offering of a new summer term for beginning freshmen.

This is part of an effort by the three state institutions of higher learning to make college available to more students and to make fuller use of college facilities.

The special 11-week summer term designed especially for freshmen, will offer 12 semester hours of college credit and will make it possible for students to graduate from SCI in three calendar years. The term will begin June 13 and end August 28.

The College, with in-service teachers in mind, will continue for them, and for graduate students, the regular 8-week session from June 13 to August 7.

Students wishing to use their summers for work or leisure time may, of course, attend the usual four academic years at SCI, since there is no basic change in the September through June college program.

Although the cost per year will undoubtedly be higher for the year-round student, in actual dollars he can come out far ahead. The student who finishes college in three years can earn as much as \$5,000 in salary during the fourth year—instead of spending money to go to college. This is far more than most students could earn in three summers.

For those students who must work part- or full-time, and thus carry a reduced load, it will still be possible to finish college in four years by attending the summer terms.

There will be additional scholarships and loans available for qualified students, and the College makes every effort to aid students in finding part-time employment.

Strictly in terms of time, the accelerated program may be attractive to many students. Those who complete their schooling in three years will be a year ahead in plans they may have for employment or advanced study.

In 1963, the 11-week session will be for freshmen only. Entering freshmen may still enroll in the regular 8-week session. The curriculum will be expanded in succeeding years to include advanced undergraduate students on the special program.

More specific information about the special summer session can be obtained from Registrar M. R. Beard here at the college.

Cancer Claims Life of Dr. Dorothy Matala

Dr. Dorothy Matala of Cedar Falls, nationally recognized for her leadership in the field of biological education, died Dec. 13 in a Waterloo hospital after an illness of several months. She was 48.

Dr. Matala

The wife of Dr. R. E. Matala, she was a professor of biology at the State College of Iowa, and had been associated with the college

since 1946.

Mrs. Matala was widely known throughout Iowa as a special consultant in methods and curriculum for science teaching from grade school through high school levels.

She was cited this fall by the American Institute of Biological Sciences for her exceptional service and creative contributions to the biological sciences and biological education.

She had been a member of the governing board and the executive committee of the AIBS, and served seven years as a consultant and contributor to the Biological Sciences Curriculum Study.

Dr. Matala was active in camping activities and served for the past six years as a member of the Board of Directors of the Waterloo Girl Scouts.

A graduate of Indiana Central College, she earned an M.A. degree from Indiana University, and the Ph.D. from Cornell University. She was widely published in scientific magazines and journals.

A past vice-president of the National Association of Biology Teachers, she was a member of the Iowa Academy of Science and the National Science Teachers Association.

Dr. Matala is survived by her husband, also a member of the SCI faculty; by her mother, Mrs. L. M. Miller of Indianapolis, Ind.; and by a sister and brother, Miss Lucille Miller and Hugh Miller, both of Indianapolis.

Dr. Harold Trimble, Math Head, Resigns

Dr. H. C. Trimble, head of the State College of Iowa department of mathematics, has resigned effective June 7, 1963.

Associated with SCI since 1940, Dr. Trimble has accepted a position as professor of mathematics in the College of Education at Ohio State University.

In accepting the resignation, college officials emphasized their regret at Dr. Trimble's decision. Dr. Trimble said that he will have more opportunity for intensive study and research with a wider variety of professional associates at Ohio State, although he leaves his associations at SCI with reluctance.

A native of Ontario, Canada, Dr. Trimble was graduated from the University of Western Ontario, and received the M.A. and Ph.D. degrees from the University of Wisconsin.

He did post graduate study at the University of Chicago where he served as an instructor in education and as a general education board fellow.

Active in mathematics and education associations, Dr. Trimble has published numerous articles in the area of mathematics education in professional journals.

He has authored or co-authored five textbooks in mathematics, including the Scott-Foresman publication, "Seeing Through Mathematics I," published this year as the first in a series of textbooks for junior high and high school students.

Dr. Trimble is presently at work on the second book in the series for eighth grade students which is expected to be published in 1963, with the ninth grade book to be printed in 1964. He will serve as advisory author on three texts designed for senior high school students to be published in 1965.

Dr. Trimble will begin his work at Ohio State University on June 17, 1963.

Building Named for Hoxie, '40

Dr. R. Gordon Hoxie (BA '40) noted educator and historical writer, was signally honored when a new \$250,000 social science building at C. W. Post College, located on the north shore of Long Island, was named in his honor. He is the son of Mrs. C. R. Hoxie and the late Dr. Hoxie of Waterloo.

Dr. Hoxie, who was the first dean of C. W. Post and who is now its provost, was honored for his outstanding work in guiding the growth and development of the college.

Dr. Hoxie received his early education in Iowa schools and was awarded the B.A. degree with high honors by

State College of Iowa in 1940. He earned the M.A. from the University of Wisconsin in 1941, and the Ph.D. from Columbia University in 1950.

Following World War II service in the Air Force, in which he now holds the reserve rank of colonel, Dr. Hoxie held significant administrative and teaching posts at the University of Denver and Columbia University. A student of American history, geopolitics and political science, he has lectured at a number of leading universities and is the author of several books and articles in these fields. He has also served as a consultant in college development programs and policies, and as an advisor for military education and training programs.

We hear from alumni...

'11

Mr. and Mrs. Robert W. Pattengill ((Ruth E. Berger) Jr. Coll. '11, celebrated their Golden Wedding Anniversary, July 1962. They reside at 1988 Catalina Blvd., San Diego 7, California.

'18

Ruth Ellena Swezey (P.E. '18), retired after 41½ years of teaching. She took a trip around the world and represented the International Recreation Assoc. at the Asian Recreation Congress in Yokohama. She resides at 16 Ransom, Forty Fort, Pennsylvania.

'20

Mamie Cordelia Lister (B.A. '20), 608 W. 14th St., Newton, has retired after thirty nine years of teaching at Sam Houston State Teachers College, in Huntsville, Texas. Twenty six years she was head of the Home Economics Department.

Lillian Mae Sohner (Elem. '20), 309 Cortlandt, Waterloo, retired June 1962, after 43 years of teaching. She taught in Wapello and Cherokee before coming to the Waterloo school system.

'21

Marguerite Jane Hilton (Jr. Coll. '21), 717 Hope St., Waterloo, has retired after 41 years of teaching. She taught in Terril and Garner before she came to the Waterloo school system, 38 years ago.

'24

Mrs. Charles W. Naisbitt (Esther E. Cambridge) and her sister, Mrs. G. A. Williams (Mary E. Cambridge), both Elem. '24, 620 W. State, Colfax, were callers in the Alumni office on August 1, 1962.

'24 & '25

Mrs. Arnold M. Mayland (Dulcie Hughes), J.C. '24, Spring Valley, Minnesota and Mrs. Lester Dyckman (Ethel Dorothy Hughes), 205 W. Main St., Spring Valley, Minnesota, were callers in the Alumni office on October 30, 1962.

'27

E. Lillian Maxwell (Jr. Coll. '27), 521 Moir, Waterloo, retired June 1962 after teaching for the past 35 years in the Waterloo school system.

'37 Grad Directs Choirs in Europe

Mrs. Virginia Dinsmore (Virginia Warren, BA '37) led the Protestant choir of the Hainerberg chapel at Wiesbaden to top honors in the United States Air Forces in Europe choir contest for 1962.

Mrs. Dinsmore

Mrs. Dinsmore directs the two Protestant choirs in the Hainerberg chapel.

During the 1961 Christmas season, Mrs. Dinsmore organized a community chorus of 100 voices to present Handel's "Messiah" before German and American audiences.

Last fall, Mrs. Dinsmore directed the hit musical "Kismet" which ran seven performances at the American community center here.

The Dinsmores have two children, Diana, 17, and Charles 7. Mr. Dinsmore is an Air Force lieutenant colonel.

'57 & '61

Madonna Mae Ryan (Elem. '57) and Terrence A. Cinkle (B.A. '61), 123 S. 11th, Minneapolis, Minnesota.

THE MAIL BOX

Alumni are invited to send us news about themselves or other graduates. We will print as many as we have room for. We must reserve the right to edit the letters to meet space requirements.

My classmates and I seem to have entered the stage, or age, of oblivion. We're too young to die or retire, too old to marry and have children, and apparently are busy with various routines that do not warrant publicity. However, despite all, I anxiously search through each copy of the **Alumnus** and am rewarded with excellent stories of my alma mater. I would very much miss receiving my copy, so please change my mailing address, for I've moved.

Honora Myer Clemens, B.A. '48, 28069 Ella Road, Palos Verdes Estates, Calif.

I have a job here as an Elementary Curriculum Coordinator. I have 13

schools to look after—this is the largest school district—area-wise—in the U.S.—4500 square miles. One of my schools is 210 miles round trip. Some of the schools have Navajo Indians, and some Acoma or Logrona Indians, others none. It is a most interesting situation and very challenging with a great variety of things to do which I like.

The people here are very friendly, and the scenery beautiful if you like mountains which we do. If you ever come west on Route 66 be sure you stop and see us. This is very historic country, and famous for uranium mines—although we haven't found one yet!!!

Julano O. Miller, M.A. 1932, 310 Anderson St., Grants, New Mexico.

Scholarship Deadline Is March 1

Graduates of State College of Iowa desiring to do advanced study at any college or university will be given consideration for a Merchant Scholarship Award if application is filed prior to March 1. The final decision will be announced April 15.

Approximately \$3,000 is available for the current award. Funds are provided

under the will of the late Professor Frank Ivan Merchant and Kat Matilda Merchant, and awards are made by decision of the president of the college and department heads.

Special application blanks may be secured by writing to the Merchant Scholarship Committee chairman, Dr. Donald Howard.
